Dear Mr. Hoover:

The Association of American Physicians and Surgeons I am sure is not an unknown organization to you. We are happy to report that its ideals are entirely compatible with the ideals of all true Americans for the preservation of the American way of life.

In July and August of this year the Harris County Chapter of the Association of American Physicians and Surgeons was organized. At the time of its inception it was our desire to have at least two outstanding lecturers devoted to the American way of life and the preservation of our freedom presented to the membership twice a year. It is in this regard that I am writing you.

The Harris County Chapter of the Association of American Physicians and Surgeons wishes to extend an invitation to you to be our first speaker. We would like to have this meeting in January of 1961. Any date in January of 1961 which is convenient for you will be entirely acceptable to us with the exception of January 10th and 18th. On these two dates there would be conflicting meetings.

We should appreciate knowing at the earliest possible date whether you can and will be our guest speaker in January, if so, the date most convenient for you as well as the date at which you would arrive in Houston. We anticipate that in addition to the formal dinner and meeting that there will

Dear Mr. Hoover:

You have recently received a letter dated October 20, 1960, from Dr. James Sammons who is secretary of the Harris County Chapter of the Association of American Physicians and Surgeons. This letter was a request by way of an invitation for you to be the first of a number of guest speakers which we plan to have during the year 1961. This will be our inaugural meeting and we feel that you are the appropriate gentleman to give us a good "kick-off."

Ours is the first local chapter of the Association of American Physicians and Surgeons in our great Nation. Our ideals are synonymous to those of yours. We feel that we have a good organization and that it has tremendous potential in informing the physicians of this Nation about Communist infiltration and stimulating them to become active opposers to this problem, as well as opposing all other people, organizations, and maneuvers which are subversive in nature, and/or inflationary.

Socialism, the twin sister of Communism, is an ever-present threat to our freedom-loving country. We must be alert every minute in order to prevent this disease from spreading, in fact, we must have it regress in order to preserve our Constitution and freedom. I know this is urgent and must be done with utmost speed because of the way things are going in Washington, D. C. at this time. Appeasement and inflation are flourishing, nobody in the Cabinet, Congress, Supreme Court, and even the President, seems to be aware of the facts, or they seem to be withholding the information from the general public.

I hope that your reply to our invitation is affirmative. I feel that your presence as Speaker at our first meeting would

give the people and our organization considerable stimulation to be on the alert to preserve what we have left of the original U. S. Constitution and the freedom which it guarantees us.

Hoping to see you in January, 1961, and with best wishes, I remain

Sincerely,

Dan W. Holloway, M. D.

Dear Sir;

I am a [redacted] and have been approached in regards to joining the Association of American Physicians and Surgeons located at 185 N. Wabash Ave; Chicago 1, Illinois. as an organization which is, allegedly, devoted to preventing the encroachment of socialism and communism in this country. As I am deeply concerned about the many socialistic trends in this country, I would like to know if this organization and its leaders are truly and legitimately trying to foster this aim or whether this is a subversive front organization. If it truly is a legitimate group, I am interested in supporting this group.

Secondly, could you furnish me any information in regards to the true legitimacy of the Mental Health Movement from the standpoint of whether or not its spokesmen are largely qualified psychiatrists or clinical psychologists and whether or not this is being infiltrated by communistic influences.

I would appreciate any information that you can offer.

Sincerely,

I have received your letter dated June 18, 1961, and your interest in writing to me is appreciated.

While I would like to be of assistance, the jurisdiction and responsibilities of the FBI do not extend to furnishing evaluations or comments concerning the character or integrity of any individual, organization or publication. I am enclosing two items of literature available for distribution by the FBI which you may like to read.

Gentlemen:

I have recently received an unsolicited application for membership in the above named organization, and although I recognize a number of names of physicians listed as members as men well thought of in the profession, I am somewhat disturbed by the literature accompanying the application form.

After some thought, I feel that this is probably true because in several places the fact that the organization stands for "Americanism", "America first", "patriotism", and protests these quite loudly, and I am concerned less this be a device for covering less noble motives.

This is to request information as to whether this organization is known to your office, and if it is whether any hint of irregular, unlawful, or otherwise undesirable purpose or activity is attributed to any of its known members.

Thank you for your kind attention.

Very truly yours,

Dear Mr. Hoover:

We are desirous of having you deliver our Banquet address (held in connection with our Annual Meeting) in Denver, Colorado on Friday evening, October 11, 1963. We are able to pay you an honorarium of $500 plus expenses.

AAPS represents physicians in medical economics, public relations, legislation, and freedom.

Our objective of "freedom" can be defined by stating that we oppose the socialization of all segments of the economy just as vigorously as we oppose socialized medicine. This position is held because when one part of the economy falls to the socialists, the other parts - including the medical profession - become more vulnerable to capture.

During the past number of years we have had the pleasure of hearing distinguished speakers like the late Senator Robert A. Taft; Senator Barry Goldwater, Representative Bruce Alger; Representative John Bell Williams; Dr. George Benson of Harding College; Leonard E. Read, Fulton Lewis, Jr.; former Senator John Bricker; and many others. We would be honored to add your name to this distinguished list.

We shall look forward to hearing from you at your earliest convenience.

Sincerely,

Harry E. Northam

Remarks of Mr. Hoover before the Brotherhood of the Washington Hebrew Congregation in Washington, D. C., December 4, 1963

This is a great moment in my life To be recognized in this manner by the Brotherhood of the Washington Hebrew Congregation is a distinction which I shall cherish always

I am especially honored by the presence of so many close friends, including the distinguished civic leaders whom you have selected as recipients of other awards.

How have these men come to positions of prominence in our community? It is because they have dedicated themselves to service—they have eagerly accepted the responsibilities of good citizenship, and they are willing to be judged upon their records of positive contributions to the cause of decency and of justice.

Decency and justice—these are the high aims of this Brotherhood, just as they always have been an integral part of the Hebrew religion which has given mankind the Ten Commandments and the concept of a monotheistic God For these sacred gifts, all true religions of the Western World are eternally indebted to you.

Americans of the Hebrew faith are doubly blessed The rich cultural inheritance that has been handed down since early Biblical times to generation after generation of Jews is combined, in our country, with a proud heritage of freedom It is a heritage that was won by the sweat, the blood and the sacrifices

of men and women of many nationalities and many religious creeds.

Devotion to God, belief in the inherent dignity of mankind, faith in man's ability, through divine Providence, to guide his own destiny—these are the strong ties that hold together our United States, the greatest brotherhood of freedom in the history of the world.

No one has a deeper understanding of the true meaning of freedom than the members of the Hebrew faith, for no peoples have suffered more relentless persecution and injustice at the hands of tyranny through the ages.

Today the fires of anti-Semitism continue to burn with fierce intensity in many areas of the world. This is particularly true behind the Iron Curtain where communism, the bitter enemy of Judaism and of all other religions of the world, seeks to destroy your priceless heritage and the right of your people to live according to the tenets of God.

During the past generation, the conscience of decent men everywhere has been shocked by the continuing vicious atrocities that have been committed against Jews in the Soviet Union. Rabbis have been arrested and imprisoned or executed, synagogues have been desecrated, the traditional Jewish school system has been liquidated, and Hebrew literature, language and customs have been suppressed by the Russian communists.

Despite communist claims of improved conditions for Jews under the Khrushchev regime, the opposite actually is true. Additional forms of suppression have been introduced.

The observance of Passover no longer can be held according to tradition, sacred Hebrew burial customs have been obstructed, and a state-wide program has been instituted to make Jews the scapegoats for criminal acts affecting the Russian economy. Jews are clearly identified by religion on the internal passport which all Soviet citizens must carry.

Last October, the outrageous extent of this program was disclosed by the Moscow newspaper "Izvestia" when it announced the arrests of several persons involved in an alleged criminal conspiracy. The leaders of this gang have "Jewish names," "Izvestia" told its readers in demanding a "show trial" and "death sentences."

Vicious outbursts of religious hatred such as this caused one American newspaper recently to warn its readers, "For reasons best known to themselves the Soviet leaders discriminate heavily against Jews. The evidence is overwhelming and incontrovertible and renewed almost daily by the Russians themselves."

In a joint statement released last summer, three American Jewish organizations de-

nounced the Soviet press for conveying "a viciously negative image of the Jews," and indignantly proclaimed, "Soviet Jews are deprived by official policy of religious and cultural rights and are the victims of discrimination"

Communism and religion—like communism and freedom—can never coexist, for Marxism is unalterably opposed to all forms of religious belief Lenin acknowledged this fact more than 50 years ago when he exhorted his followers, "We must combat religion—this is the A.B C of all materialism, and consequently of Marxism" Then he declared, "The Marxist must be an enemy of religion"

Since the time of Lenin, atheistic communism has surged forth from Russia to enslave nearly one fourth of the earth's surface and a third of her peoples Nowhere are its advance battalions more active than in our own Western Hemisphere, where agents trained by the Kremlin continue to burrow deeply into countries of the Caribbean and Central and South America Their deadly objective is to undermine legitimate governments, foment revolution and create a Soviet Union of Latin American Republics

I have said this before and I would like to repeat it here We are at war with communism and the sooner every red-blooded American realizes this the safer we will be.

Here in the United States, the cause of international communism is represented by the Communist Party, USA—a cunning and defiant subversive conspiracy which is financed, directed and controlled by the Kremlin. Its membership consists today of a hard core of revolutionary fanatics who are knowingly and eagerly subservient to the dictates of Moscow The dupes, the dissidents and the faint of heart have long since been purged from the Party's ranks.

Today, the communists are engaged in a vigorous campaign to divide and weaken America from within. Foremost in this campaign are the Party's efforts to exploit misunderstandings and capitalize upon areas of dissension and unrest wherever they exist This is especially true in the intense civil rights movement, for America's 20 million Negroes and all others engaged in this struggle are a major target for communist propaganda and subversion

It would be absurd to suggest that the aspirations of Negroes for equality are communist inspired This is demonstrably not true But what is demonstrable is that some individuals and groups exploit the tension for purposes not confined to the equality of human rights under the Constitution of the United States The crusade should not become a vehicle for political radicalism or organized violence.

Devotion to race must not supersede devotion to established institutions

It would be useful if responsible Negro leaders themselves could make it clear to all who follow them that their interest is solely in racial equality

This Nation was conceived under God and its progress has been under God There could be no greater disaster for our Nation than that it should deny in any respect, to even the smallest degree, the presence, the power, the guidance, the protection, the instruction of Almighty God

There is unmistakable evidence of divine guidance all through the history of our Nation. We must guard it. We must cherish it We must revere it. We must work for it.

The record of our Nation is better than that of any other nation in any other part of the world. It is true there are injustices in this Nation toward those of dark skin, as well as light, but even worse injustices prevail in other parts of the world Whether the people are black- or yellow- or brown- or white-skinned, these things will have to be worked out

America has taken the lead in working them out, and it is taking the lead today It is doing more for its underprivileged minorities than any other nation in the world, but there is more to be done

We thank God that where the spirit of the Lord is, there is liberty.

As citizens of a free country, we must judge people as individuals—not by race, creed or color.

Legitimate civil rights organizations must remain constantly alert to attempts by the communists to influence their actions, take over their programs and corrupt their ranks.

Communism feeds upon ignorance, prejudice and sickness of the mind and soul It probes relentlessly for weaknesses in America's moral armor

That is why the cause of communism is well served by the hatemongers, the lunatic fringe and other rabble who preach a doctrine of malice and intolerance toward their fellow man.

These venomous fanatics, whether they are extremists of the left or the right, are carriers of a highly infectious disease They clutter the streets—and the mails—with their slanderous obscenities, urging impressionable teen-agers and unstable adults to acts of hate, terror and intimidation They have brought forth the bombs and ignited the flames that have killed decent Americans and even innocent children and destroyed churches and other temples of worship *They are a national disgrace.*

Invariably, these merchants of hate attempt to drape themselves in a cloak of patriotism But their real objective is to profiteer and capitalize upon ignorance, preju-

dice and bigotry while destroying the very ideals which they claim to uphold.

Today, the communists continue with impunity to breathe out lies and distortions against the United States Their designs on American youth revolt and anger those steeped in our national ideals of freedom

The peddling of their dishonest doctrine to highminded, largely inexperienced, and basically eager-to-believe young people is not unlike the peddling of filth and dope in demoralizing effect It can undermine patriotism, create doubts about our social and economic system, and mock the many wholesome youth organizations in this country

The great majority of American youths are genuinely convinced that they would not fall for the communist bait Many never would But there are others who might never know they were "hooked" until the enormous tragedy of their loss of faith dawned after bitter years of fighting the American way of life, almost unwittingly, as dupes of the communists.

It has happened to idealistic Americans before

There is not an avenue to the heart and mind of Americans that is not used to implant their false ideology Communism cannot be defeated by hysteria and name calling, but it can be defeated by education and living proof that our way of life is best

The God-given ideals which are responsible for this country's greatness are being attacked on many fronts today Moral lethargy, self-indulgence, neglect of duty—these lethal forces are undermining many facets of business, labor, industry and government

We find their influence in the repulsive attitude of "half-way Americans" to whom life in this country is the enjoyment of rights and privileges devoid of responsibilities.

We find their influence in those courts of law where the true purpose and intent of our Constitution as a document designed for the protection of society have too often been warped and distorted for the benefit of offenders

We find their influence in the continuing increase of crime—a tragic national problem which is growing four times as fast as our expanding population.

Crime has no respect for age, nationality, sex, color or religious creed It has turned our streets into virtual jungles of terror and fear

Today, a brutal crime of violence—a murder, forcible rape or assault to kill—is committed every three minutes The number of these senseless atrocities will continue to grow until men of strong moral conviction assert greater influence toward the prevention of crime and administration of justice.

Disrespect for law and order is a tragic moral sickness which attacks and destroys the American traditions of honesty, integrity and fair play The moral strength of our Nation has slipped alarmingly National corruption is the sum total of individual corruption We must follow the teachings of God if we hope to cure this moral illness

Law and order are bulwarks on which successful government must stand Without law and order, society will destroy itself

Fantasy and weakness have too often prevailed in the administration of justice where strength and realism are essential needs

There are some misguided social workers and judges who have perverted the meaning of mercy When so-called mercy aids society's enemies, it is no longer mercy It is sheer stupidity, if not worse Justice is needed—stern justice Without such justice our streets —and our families—will continue to be endangered

Justice is not served when the innocent victim and society suffer while the vicious criminal goes free

Oliver Wendell Holmes, Jr, observed. "At the present time in this country there is more danger that criminals will escape justice than that they will be subjected to tyranny"

Judge Learned Hand said "Our dangers do not lie in too little tenderness to the accused Our procedure has been always haunted by the ghost of the innocent man convicted It is an unreal dream What we need to fear is the archaic formalism and the watery sentiment that obstructs, delays, and defeats the prosecution of crime"

Justice Benjamin N Cardozo observed "Justice, though due to the accused, is due to the accuser also The concept of fairness must not be strained till it is narrowed to a filament. We are to keep the balance true"

Let us proceed to try armed robbers as armed robbers Let the punishment fit the crime and let us "keep the balance true."

Wherever politics and opportunism remain primary considerations in the appointment of jurists, parole officials, and others charged with the administration of justice, the public should have more adequate guarantees for the immediate removal of those who prove by their unjustifiable actions that they cannot be entrusted with the important responsibilities of their offices

The fact is millions of free Americans are taking our good way of life for granted. They have ceased to care about our foundation stones, the "rock from which we were hewn."

Let us never forget that religion has made us what we are, given us what we have Every good thing we enjoy as free Americans came directly or indirectly out of our belief in God

Our best offensive against crime, subversion, intolerance and all enemies of America's heritage of freedom is brotherhood—*a brotherhood such as yours, built upon a solid foundation of mutual trust, understanding and faith in God*

There must be a moral reawakening in every home in our land.

History shows us the great accomplishments that can be attained by the combined efforts of selfless men and women who are sincerely dedicated to a noble cause We have such a cause in America—to dispel intolerance, to preserve the rule of law, to protect and strengthen our God-given ideals and faith in freedom.

Law and public sanctions help to keep our deeds in line—only conscience polices our thoughts. It is much easier to control our actions than our thoughts

For, "As a man thinketh in his heart so is he"

Two hundred years ago, our founding fathers had a vision of a nation where men could live together and worship together without fear Today, we hold this same vision —the determination that faith, courage and decency will prevail over all enemies of freedom.

Since 1753, when the Liberty Bell first tolled at Independence Hall in Philadelphia, it has borne a solemn Old Testament inscription from Leviticus XXV, verse 10:

"Proclaim liberty throughout all the land unto all the inhabitants thereof."

Let us all work together to maintain this great American ideal With God's divine guidance, let us build an ever more powerful brotherhood of liberty and justice for the benefit of all mankind.

As the Father of our Country so aptly said—"As we declare our loyalty to our country, help us to keep in mind the need of faith in God and immortality without which life is meaningless and vain"

This is our mission as a nation of free people, united in one faith—Faith in God

I accept this award with a deep feeling of humility I shall treasure it because of my great admiration for the outstanding work being performed by the Catholic Youth Organization Your efforts on behalf of America's young people have earned the acclaim of all citizens who are concerned with the future of our Nation.

I am doubly honored that the invitation to attend this banquet was personally extended by His Eminence, Francis Cardinal Spellman, a brilliant and dedicated leader and a devoted servant of God.

To His Excellency, Archbishop John J Krol, Monsignor Frederick J. Stevenson, and all associated with the Catholic Youth Organization and the Youth Department of the National Catholic Welfare Conference who have made this such a pleasant occasion, I express heartfelt appreciation. It has been especially good to see so many friends and to renew old acquaintances

To the outstanding young people assembled here tonight, I bring warm greetings. Yours is a generation of great challenge Through no choice of your own, you have entered the world at a time when deadly forces challenge your right, and the right of every American, to live in freedom under God

Young people in postwar America have grown up with the disillusioning knowledge that the world is no longer "safe for democracy"

High ideals are the birthright of youth, but the youth of postwar America must face, also, the chaos which present-day society presents, and bring about order through the realization of those high ideals.

We are at war with communism, in different ways on different fronts around the world The communist ideology is born in hate, but our philosophy of life is the practice of love and faith

Just as freedom is your right, so challenge is your heritage—for freedom, once won, must constantly be defended

Today, our country faces the most severe test ever to confront a free people. Here and abroad, mortal enemies of freedom and deniers of God Himself conspire to undermine the fundamental forces which are the lifeline of our country's vitality and greatness—our most formidable weapons, in peace and in war.

What are these forces? They are:

FAITH — faith in a Supreme Being God, the Author of Liberty.

INDIVIDUALISM — inherent dignity and worth of every sovereign individual with his personal rights and responsibilities.

COURAGE — the courage of a free people firmly dedicated to the noblest cause

INTEGRITY — that quality of trustworthiness which is essential in dealings between men, *and* between countries

DISCIPLINE — and self-discipline, which are vital in a nation governed by laws rather than by men.

VISION — such as led our founding fathers into the perilous dangers of a hostile wilderness that was to become the proud American Republic in which we live today

These are America's great bulwarks They are under savage attack today, just as they were so severely tested nearly 200 years ago at Bunker Hill and at Valley Forge

Daniel Webster, that brilliant early American statesman, eloquently declared, "God grants liberty only to those who love it, and are always ready to guard and defend it"

Daniel Webster knew the heavy price America had paid for her liberty And he knew also the disintegrating effect of self-indulgence, neglect of duty and public lethargy in a nation of free men

These lethal influences are at work, constantly undermining the sense of personal responsibility and self-discipline so essential to our Nation's welfare They form a common denominator with the aggressive enemies of our Republic in assaulting the cause of decency and justice across the length and breadth of the land

Who are these enemies of our Republic? They are the crime syndicates, the narcotics peddlers, the labor racketeers, the unscrupulous businessmen, the corrupt politicians and all others who blatantly defy the laws of the land

They are the hatemongers and the false liberals who would subvert our Constitution and undermine our democratic processes in furtherance of their selfish ends

They are the communists and other subversive elements who wave false banners of legitimacy and patriotism while relentlessly plotting to destroy our heritage of freedom

Communism—in all its forms and in all its variations—is the avowed enemy of liberty and of justice and of God The communists *fear* free and independent thought They *fear* truth They *fear* God even though they deny Him They *fear* the inherent courage and dignity of man created in His image

Today, the communists are engaged in an intensive campaign to control the minds and win the allegiance of American youth Toward this end, a National Youth Commission

has been established within the Communist Party, USA; special publications have been issued, front groups have been organized, and an ambitious speech program has been directed against our colleges and universities.

During the past two years, communist spokesmen have appeared on nearly 100 campuses from coast to coast. Their purpose: To create confusion, raise questions and spread doubt among our young people concerning the American way of life.

If their constitutional right to free speech allows them to use the public school forum to promote the secular creed of Marxism—Leninism which openly and avowedly denies God, *does their constitutional freedom of religion also* prohibit *the rest of us from using the same public school forum to express our faith that God does exist?*

It is indeed ironic that Communist Party speakers—whose minds and thoughts and actions are *in no manner free*—should demand the opportunity to parrot the Moscow line to young Americans under the guise of *academic freedom!*

Academic freedom is not an instrument for the perpetuation of conspiratorial ideologies Nor is it an agent of self-destruction—a freedom to destroy freedom. As a free-flowing channel of truth and knowledge, academic freedom is not obligated to carry along the silted tributaries of lies and distortions of known communists.

The communists look upon students as potential sympathizers, supporters and contributors to the Party's cause. Nor are they unmindful of the rich opportunity for infiltration presented by unwary racial and nationality groups.

This is especially true of the intense civil rights movement within the United States—for America's 20 million Negroes and the countless other citizens who share their objectives in the current struggle are a priority target for communist propaganda and exploitation. Every organization engaged in this struggle must constantly remain alert to this vital fact, for, once under communist domination, all freedoms and rights are lost

The communists are eager to capitalize upon all areas of misunderstanding and unrest. Their cause is the cause of Soviet Russia, for the Communist Party, USA, is an inseparable part of the sinister international conspiracy which is financed and directed by the Kremlin. No amount of lies and duplicity can conceal this carefully documented fact.

Today, the godless communist conspiracy controls more than one third of the earth's people and a fourth of her land surface. In Europe, in Asia and here in our own Western Hemisphere, we witness the stark tragedy of

souls, chained to the yoke of communism, clamoring to be free again

The Khrushchevs, the Castros and the Mao Tse-tungs are faced with an eternal dilemma The human spirit in bondage—no matter how heavy the chains—struggles relentlessly to break free Witness the Hungarian Revolution, the boatloads of Marxist victims who continue to pour out of Cuba; the Poznan Riots in Poland, the heroic dashes of subjugated people through the Iron and Bamboo Curtains.

Make no mistake about the communists in this country! Whether they are members of Soviet-bloc diplomatic establishments in New York and Washington—or whether they are fanatical adherents of the Communist Party, USA—all represent the same ideology of treachery, deceit, and subversion.

From the immunity which they enjoy as foreign diplomats on American soil, Soviet and satellite officials continue to carry out espionage assignments against the United States That some American citizens, including concealed adherents to the Communist Party, have knowingly and willingly assisted these Iron Curtain intelligence networks is a criminal disgrace and a blight not only upon our Nation, but upon the entire free world And it is equally disgraceful that well-meaning but uninformed citizens have permitted themselves to be duped by sympathy campaigns on behalf of Julius and Ethel Rosenberg, Morton Sobell and other traitors.

Nowhere is the hope for peace more sincere than in the hearts of all true Americans But in our quest for peace, we must never lose sight of the well-documented fact that every Red leader from Marx and Engels through Khrushchev, Mao and the American communist spokesman Gus Hall is dedicated to an ideology which upholds world conquest as its ultimate goal

The communists have never deviated from this objective Despite the high-pressure campaign they have mounted behind Khrushchev's phrase of "peaceful coexistence," the communists know that this is simply a propaganda slogan—one devised to further their own ends by stirring the hopes and emotions of those who seek an end to the turmoil, fear and sorrow that world communism itself created

Actions continue to speak louder than words, and certainly the communists have shown no indication of a sincere quest for peace

The take-over of Cuba and effort to convert it into an island fortress against democracy, the ever-constant infiltration of Red fascists into countries of Central and South America to create a Sovietized Latin America;

the increase of espionage activities by Soviet and satellite agents in our country, particularly those who strive to penetrate our Government processes from the protection afforded them by diplomatic assignments in New York and Washington, the frantic efforts of the Communist Party, USA, to subvert our youth, and the intense drive of the communists operating from concealed positions to wrest control of the movement for Negro rights—does all this indicate a real and sincere desire to live in "peaceful coexistence?"

In recent years, the communists have demonstrated an attitude of open defiance and contempt for our laws—an attitude which is fortified by their repeated ability to invoke loopholes, technicalities and delays in the law to thwart justice One former judge found cause to warn last summer not only of "inexcusable" delays in the courts, but also of what he considered to be a "trend of decisions in the last 10 years favorable to extreme left-wingers, communists and subversives in general!"

Another student of court rulings in the internal security field was prompted to observe, "Unfortunately, subversive activities are well on the way to becoming a no-man's land in the law"

In 1957, a Federal judge in the Nation's capital assailed what he considered to be "an unfortunate trend of judicial decisions which strain and stretch to give the guilty, not the same, but vastly more protection than the law-abiding citizen" There has been no reversal of this alarming trend—a trend which is felt in our steadily rising national crime problem

Justice in a free nation means protection for society as a whole, rather than leniency for the individual to the detriment of society

Since 1957, when the Federal judge issued his warning, crime has increased nearly 40 per cent! Its victims continue to mount at a relentless rate Four serious crimes are committed every minute, there is a crime of violence every three minutes, and property crimes—robberies, burglaries, larcenies and automobile thefts—occur within seconds

Americans, in growing numbers, are developing a dangerously indulgent attitude toward crime, filth, and corruption No one can deny that motion pictures are deliberately and defiantly pursuing an increasingly bold courtship with obscenity No one can deny the role of the television industry in bringing lurid portrayals of violence and sadism into the living rooms—and even the nurseries—of our homes. No one can deny that sensual trash is moving closer and closer to the children's books on the shelves of our newsstands and magazine stores

Our youth do not need weakness; they need

strength! They do not need indulgence, they need the guidance and THE DISCIPLINE which can best be produced by a decent home.

Above all, they need the benefit of religion —in church, at home and in the atmosphere of our classrooms.

Despite the dedicated efforts of church and civic leaders and others who have a sincere interest in the proper development of our young people, the failures continue to mount Each year, persons under 18 years of age are involved in nearly two thirds of the arrests for automobile thefts, and approximately one half of the burglary and larceny arrests The newspapers of our major cities recount incidents of senseless murders, violent assaults and brutal beatings inflicted upon innocent victims by arrogant gangs of teenagers and young adults

Courts are influenced too much by the age —rather than the record—of the young hoodlum who stands before the bar of justice

The bleeding hearts, some actually sworn to administer the law either as judges or social workers, are so concerned for young criminals and terrorists that they are indifferent to the rights of law-abiding members of society

We have mollycoddled young criminals, lightly tapped hardened offenders on the wrists and released some unreformed and unrepentant hoodlums to prey anew on society.

The time is long overdue for us to adopt a more realistic attitude toward this critical problem We have tried the charitable approach toward young hoodlums and it has failed

We are paying dearly for these failures They represent a tragic waste of America's most valuable resource—the moral, mental and physical health of her young citizens

The crime problem costs the American people some $22 billion a year—nine times the amount contributed to our churches! For every $1 spent on educating our children, $1 11 goes to crime!

Nowhere in recent months have our people faced a more explosive condition of shame and violence than among the hatemongers, the moral degenerates, the lunatic fringe and the other irrational fanatics who preach a doctrine of hostility toward their fellow man This rabble has sown the dragons' teeth of malice and intimidation, and from the ground has sprung a series of hate-driven riots, bombings and desecrations.

The voices of temperance, logic and decency must speak out more effectively and make their influence felt No problem is so acute, no crisis so severe, that terrorism can be tolerated in a society of free men Hate, terror and lawlessness are not the American way of accomplishing any objective that is truly worthwhile In meeting the tense crises

which confront the United States in this nuclear age, we must look to God for guidance and inspiration

This country has never run from its enemies Challenge, not compromise—bravery, not cowardice—are integral parts of our heritage Since that critical hour in 1777 when General Washington ordered his Revolutionary Army to "Put none but Americans on guard to-night," it has been the tradition of our proud Nation to rise to its greatest heights in the face of adversity.

There are important lessons to be learned in the pages of American history. From Faneuil Hall to Cape Canaveral, our greatest patriots have been men and women of deep religious conviction Men like Thomas Jefferson, the principal author of our Declaration of Independence, who told his fellow colonists, "The God who gave us life, gave us liberty at the same time"

In the eyes of a later-day hero, "Freedom, devotion to God and country are not things of the past They will never become old-fashioned" These words were spoken by Astronaut John H Glenn.

America remains free because men of faith, men of individualism, *men of* courage, *men of* integrity, *men of* discipline *and men of* vision *have patrolled her most vital outposts for* 187 *years*

These strong qualities—Faith, Individualism, Courage, Integrity, Discipline and Vision —are the keys to freedom

When the United States has lost its youthful outlook, it will have lost its vitality and its capacity for progress That is why I charge the young people assembled here tonight to preserve the pioneer spirit which has been the soul of America since her birth

Meet every new challenge with confidence and determination As you look to the future, do not lose sight of the important lessons of the past History, all too often, repeats itself The freedoms you enjoy today will be lost, as they have been destroyed at other times and in other nations, through neglect and abuse.

Do not hesitate to speak out and bring public pressure to bear upon negative influences within your communities We must never become so accustomed to filth or so intimidated by the advocates of so-called "worldly reality" that we fail to revolt against corruption and decay

May you always protect America's heritage of freedom. May you, with God's holy guidance, preserve and strengthen that priceless heritage for the generations yet to come

As His Eminence, Francis Cardinal Spellman, observed so profoundly nearly a decade ago, "We have no right to expect to keep our freedoms, if we ourselves do not faithfully and thankfully protect the soil and soul of

America from those who have abandoned God, and for God's Commandments have substituted their own code of inhumanity, greed and violence"

Let us protect and defend the real meaning of America This is the debt we owe to the brave legions of the past who laid down their lives to safeguard the great truths which guide our destiny today

By letter dated December 9, 1963, Mr. Harry E. Northam, Executive Director of the above-captioned organization, wrote to me and requested permission to reprint my speeches entitled "Keys to Freedom" and "Faith in Freedom." He stated the Association wished to disseminate these speeches to its membership. On two other occasions permission was given to this organization to reprint copies of my talks, in 1962 and 1960. In 1960 I advised Mr. Northam that while I had no objections to his reprinting my speeches copies were available in quantities from the Bureau at no charge.

Re Bureau airtel 5/4/64.

On 5/13/64, Mr. HARRY E. NORTHAM, Executive Director of the above captioned association was contacted and advised according to instructions contained in referenced airtel.

Mr. NORTHAM was extremely cooperative and obviously a great admirer of the Director. He said that under date of 5/7/64, he received a letter from the Director in response to his letter of congratulations on the occasion of the Director's 40th anniversary.

Mr. NORTHAM said that his association has approximately 15,000 doctor members and in the belief that by making literature of high caliber such as the reprints of the Director's speeches available to the doctors and their patients much can be done to combat "creeping socialism" which is so much in evidence in our country.

As a matter of practice, copies of the Director's speeches are made available free of charge to the Association's

Mr. NORTHAM said that he wants to cooperate fully with the Bureau and will in the future eliminate prices on the reprints of the Director's speeches. * If it would be agreeable with the Bureau if, instead of quoting prices on the last page of the reprint, the Association noted on this last page that additional copies were obtainable free of charge by writing the Federal Bureau of Investigation.

Mr. NORTHAM was advised that his inquiry would be referred to the Bureau.

The Bureau is requested to advise to what extent, if any, answer may be made by Chicago to Mr. NORTHAM's inquiry.
